

NEGRI FRATELLI s.r.l.

INTEGRATED COMPANY POLICY

Negri Fratelli Srl, specialized in the production of ball valves for the oil & gas sector, has always pursued the goal of fully satisfying its Customers by offering reliable, safe, and sustainable products.

We are aware that natural gas, although a strategic resource, has an impact on the climate. For this reason, we develop solutions that minimize fugitive emissions, increase network efficiency, and contribute to the safety of people, facilities, and communities.

Our success is based on a strategy that integrates quality, safety, environmental protection, and energy efficiency, with the commitment to:

- **Ensure adequate resources, skills, and clear responsibilities**, assigning the *Integrated Management System Manager* the task of guaranteeing the proper implementation and continuous improvement of the system.
- **Involve and train all personnel** so that everyone is aware of their role and contributes to collective growth while operating in safe and healthy conditions.
- **Ensure constant compliance with laws, regulations, and international standards** (UNI EN ISO 9001:2015, UNI ISO 45001:2018, UNI EN ISO 14001:2015, PED 2014/68/EU, API Q1 10th Ed.).
- **Reduce consumption and environmental impact**, favoring energy from renewable sources and efficient technological solutions.
- **Eliminate hazards and reduce risks** by promoting a culture of prevention at all levels.
- **Enhance professionalism and motivation** by providing continuous training and opportunities for growth.
- **Collaborate responsibly with suppliers and partners**, promoting sustainability, quality, and safety criteria throughout the entire value chain.
- **Communicate transparently with Customers, institutions, and communities**, strengthening relationships of trust and consolidating the company's reputation.

In a competitive and constantly evolving global market, Negri Fratelli faces challenges by focusing on innovation, reliability, and service, making quality and customer support its hallmark.
